EXPERIENCE

Product Designer

Joseph Group **June 2025 - Present, Dubai, United Arab Emirates**

- Leading the end-to-end UX design of Joseph Group's integrated Project Management Dashboard - a unified platform connecting Engineering, Design, QA, Logistics, Installation, and QS departments for seamless cross-team collaboration.
- Build and scale a comprehensive design system that centralizes workflows and maintains visual consistency across all modules, improving efficiency and communication.
- Conduct deep user research and usability testing with engineers, designers, and project managers to identify bottlenecks, validate features, and enhance decision-making clarity.
- Developing with AI-assisted software to enhance efficiency and align design solutions with business goals across multiple departments, increasing organizational transparency and productivity.

UX FREELANCER

CURD.NETWORK **October 2025 - Present, Dubai, UAE, Remote**

- Contributing to the end-to-end UX design process as part of the design team for a call scheduling feature on CURD's social media platform, supporting research, journey mapping, wireframing, and high-fidelity prototyping in Figma.
- Participated in usability testing with 10+ users, helping achieve a 25% improvement in task completion and a 30% reduction in drop-off, while collaborating with developers to enhance design-to-development handoff efficiency by 40%.
- Assisted in developing and maintaining CURD's design systems, integrating feedback over 3 months to ensure cohesive and scalable UI components, resulting in a 35% decrease in design redundancy.

PRODUCT DESIGNER INTERN

MERCK SHARP & DOHME (MSD GCC) **July 2024 - January 2025, Dubai, UAE**

- Collaborated with a cross-functional team of over six members to redesign and implement MSD GCC Pulse using Figma and WordPress, resulting in a 35% increase in task completion rates.
- Resolved 20+ design issues to align with MSD global standards, enhancing usability and visual consistency across the platform.
- Engineered iterative design processes utilizing user feedback over 6 months to refine digital products, enhancing user engagement by 20% using Figma and Adobe XD.

FRONTEND ENGINEER INTERN

DERBY GROUP OF COMPANIES **June - August 2023, Dubai, UAE**

- Collaborated with a distributed agile team to design and develop multiple pages for Derby's HRMS application using HTML5, CSS3, Bootstrap, and responsive design principles.
- Contributed to front-end functionality using Object-Oriented JavaScript and jQuery, ensuring cross-browser compatibility and improving UI responsiveness across devices.
- Orchestrated product development process enhancements by integrating Vue.js, resulting in a 30% reduction in load times and improved user engagement by 20% over a 2-month project.

SKILLS

Technical Skills: Wireframing, User Flow Design, Usability Testing, A/B Testing, User Research, Guerilla Research, Rapid Prototyping, Storyboarding, Customer Insights, Prototyping, Figma, Webflow, AdobeXD, Webflow, HTML, JavaScript, JQuery, CSS, UI Sketching, User Flows, Card Sorting, Miro, Interaction Design, Journey Mapping.

Soft Skills: Creative Thinking, Problem-solving, Creative Solutions, Design Thinking.

PROJECT

CURD App

Curd.Network • October 2025 - Present

- Enhanced user engagement for the Curd social media app by optimizing the referral-based payout system through research-driven UX improvements.

Construction Tracker

Joseph Group • September 2025 - Present

- Designed and engineered a real-time construction tracking platform with BOQ controls, automated progress logic, and clean, modern dashboards.

CERTIFICATIONS

GOOGLE UX

GOOGLE • 2023

- Completed the Google UX Design Certificate by Coursera, a beginner-focused program covering user research, wireframing, prototyping, usability testing, and design thinking. Gained hands-on experience with Figma and Adobe XD, and built a professional UX portfolio with three end-to-end projects.
